PROFESSIONAL SUMMARY

I am a Computer Science engineering student driven by a deep passion to build innovative, practically feasible solutions. Whether I am crafting clean, responsive user interfaces or designing reliable backend systems, I enjoy turning complex ideas into functional code. For me, coding isn't just about writing code; it's a process of understanding problems and driving efficient solutions. With a strong foundation in core computer science principles and full-stack development, I enjoy solving real-world challenges, adapting to new technologies, and constantly improving my skills as a developer.

PROJECTS

- AI-Powered Fitness Ecosystem** | *Python, OpenCV, MediaPipe, React.js, SQL* 2026
- Engineered an end-to-end fitness platform featuring an interactive, multi-step onboarding AI Health Profiler
 - Developed customized, macro-calculated meal plans and integrated a real-time computer vision posture correction module using OpenCV and MediaPipe
- Voice-Enabled RAG Chatbot for Farmers** | *Python, RAG, LLMs, Vector DB, Speech APIs* 2025 – 2026
- Developed an interactive, voice-enabled agricultural assistant enabling farmers to query region- and crop-specific farming insights through natural speech
 - Leveraged Retrieval-Augmented Generation (RAG), vector databases, and LLMs to deliver accurate, localized agronomic recommendations
- Automated Stock Portfolio Tracker & Risk Analyzer** | *Python, Pandas, NumPy, yfinance, Flask* 2026
- Built a comprehensive portfolio management and risk-analysis web application to track real-time stock performance
 - Implemented financial risk metrics and data visualization using Pandas, NumPy, and Plotly to evaluate portfolio performance and market volatility

EDUCATION

R V Institute of Technology and Management	2023 – Present
<i>B.E/B.Tech in Computer Science</i>	CGPA: (8.48 / 10)
SRS PU College, Chitradurga	2023
<i>State Board (12th Grade)</i>	Percentage (92%)
Don Bosco ICSE School, Chitradurga	2021
<i>ICSE Board (10th Grade)</i>	Percentage (92%)

TECHNICAL SKILLS AND INTERESTS

Languages: Java (Primary), Python, JavaScript, SQL, C/C++

Core CS Subjects: Data Structures, Algorithms, Object-Oriented Programming (OOPs), Computer Networks, Machine Learning

Web Technologies: React.js, HTML/CSS

Backend Technologies: Spring Boot, Express.js, Node.js, Rest APIs

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, Notion, IntelliJ IDEA, VS Code, Jira, Trello

Soft Skills: Adaptability, Communication, Team Collaboration, Problem Solving, Analytical Thinking

Areas of Interests: Software Development, Web Development, Machine Learning

ACHIEVEMENTS AND LEADERSHIP

Volunteer	2025
<i>International Conference on Digital Technology and Engineering</i>	Bengaluru, India
